

## WESTERLY CENTAUR 26 foot

This yacht is a great example of the Westerly Centaur 26, (1976 B Layout) one of the most successful globe-trotting sailing yachts ever built by Westerly. It was priced at £4750, but now for a Quick Sell reduced to £2,950 as a great sail away New Season Bargain. Recently several thousands of pounds have been invested on restoring the hull to top form and the boat has also been regularly serviced. It has an inboard Beta 20hp, 3-cylinder low mileage diesel engine, that has been a first-time starter every time. The main cabin headlining has been replaced, (Forward cabin headlining needs fixing, lining supplied). The keel bolts have been recently strengthened; furthermore, the boat has always been moored in deep water. It has all the standard navigation equipment, Garmin plotter, Depth sounder, Compass, Log and Ship Shore, Radio. The interior is tidy with recovered seating, with a deep cold storage box underneath, and general sailing tack, 2 x Leisure batteries, galley sink and 2 ring cooker and grill with a new gas cylinder, plus a new toilet/heads Good clean sails and rigging, with all controls back into the Cockpit under a renewed spray hood. Moored on trots near the bank in a scenic area of Christchurch harbour on the river section. Mooring transferable which is on the river Stour in Christchurch harbour. The hull was antifouled 7 months ago. I am reluctantly selling this lovely vessel.
